PROFESSIONAL SUMMARY

Software engineer specializing in **AI-driven automation and enterprise data systems**. I own solutions end-to-end — from requirements to production — across telecom, hospitality, and logistics. Deep experience with cross-server SQL (**Oracle, SQL Server**), backend development, and applied machine learning, with a track record of **cutting manual workload by 60%+** through intelligent automation. Bilingual (English/Spanish), educated in Canada and Panama; currently pursuing a Cybersecurity Engineering degree.

WORK EXPERIENCE

AI Software Developer — Liberty Networks

Feb 2025 – Present | Panama City, Panama

- Architect and maintain billing and SOHO system automations across enterprise infrastructure, significantly reducing manual processing time for operations teams.
- Develop and optimize cross-server SQL queries against **Oracle and SQL Server**, ensuring data integrity and performance at enterprise scale.
- Lead AI integration initiatives for automated ticket classification and customer workflow management, **reducing manual intervention by 60%+**.
- Collaborate with cross-functional engineering teams to design and ship scalable backend solutions.

Lead Developer — TD Tech Solutions

Jan 2024 – Feb 2025 | Panama

- Led end-to-end development of digitalization and automation solutions for private clients, owning the full lifecycle from requirements gathering to production deployment.
- Designed and built web platforms integrating backend APIs, relational databases, and **AI-driven automation workflows**, improving client operational efficiency.
- Implemented business intelligence dashboards and marketing automation pipelines for clients in the hospitality and logistics sectors.
- Managed client database systems containing sensitive and confidential data, applying security best practices.

Automotive Systems Technician — General Motors

Nov 2020 – Mar 2024 | Ontario, Canada

- Operated automated production lines alongside robotic systems and computerized controls, monitoring real-time quality-control alerts to minimize defects and stoppages.

TECHNICAL SKILLS

Languages	Python, JavaScript, PHP, Java, SQL
AI / Data	Machine Learning, LLM & AI workflow automation, Data Science, BI dashboards
Databases	Oracle, SQL Server — cross-server queries, performance tuning
Cloud / Tools	AWS, Cloud Computing, Git & GitHub, technical documentation
Security	Cybersecurity (engineering degree in progress), secure data handling

EDUCATION

Engineer's Degree, Cybersecurity *(in progress)*
Universidad del Istmo, Panama · 2023 – Present

Engineer's Degree, Computer Software Engineering
Ontario Tech University, Canada · 2019 – 2023

Diploma, Python, SQL & Cloud Computing
IMMUNE Technology Institute, Madrid · 2022 – 2025

LANGUAGES

Spanish — Native

English — Full professional proficiency
Advanced English Diploma, Ontario Tech University
